

# Deadweight Test Stands for Digital & Analog e2000 Style Durometers

The Model 479 comes with a 5 kg stainless steel deadweight. (durometer not included with the stand)

These precision Deadweight Test Stands are designed for use with the e2000 line of digital or analog pencil style durometers. Using a test stand with a durometer will give the most accurate results possible. Operator error will be minimized and repeatability maximized.

The deadweights for these stands are the masses recommended by ASTM D2240. The weights are interchangeable so that one stand can be used with any of the weights to make measurements with all types of durometers.

Model	for Durometer Types
478	A, B, & O
479	C, D, & DO

## SPECIFICATIONS

- The Model 478 Stand is for Types A, B, & O. The Model 479 Stand is for Types C, D, & DO.
- Maximum height for sample . . . 6 in. (15.4 cm).
- Dimensions:
  - Height . . . . . 17 in. (43.2 cm).
  - Width . . . . . 6 in. (15.2 cm).
  - Depth . . . . . 7 in. (17.8 cm).
- Shipping Weight:

Model 478  . . . . . 13 lb. (5.9 kg).

Model 479  . . . . . 21 lb. (9.5 kg)
