

Surface Thermometer Certifications

PTC Metrology™ is Accredited by A2LA
to ISO/IEC 17025:2005 and ANSI/NCSL Z540.1

Made In U.S.A.

• **NIST Traceable A2LA Accredited (ISO 17025) Surface Thermometer Certifications from PTC Metrology™**

PTC Metrology™ meets the requirements of ISO/IEC Guide 17025:2005, ANSI/NCSL Z540.1, and ISO 9001 or 9002.

Certifications will include: as received and as returned data; a statement of uncertainty; laboratory conditions; and information on the primary standards.

Please note that certification prices do not include any labor, adjustments, repairs, or parts.

• **Customer Selected Points NIST/A2LA (ISO 17025:2005)**

This certification will contain the as received and as returned calibration results of the UUT at 3 selected temperature points. In addition to the readings, certification will include laboratory conditions, information on the primary standards and a statement of uncertainty. **\$50.00 per point** from -5°C to 400°C

To assist you in choosing test points, please refer to ASTM E-77 and NIST recommendations.

• **3 Points PTC's Choosing NIST/A2LA (ISO 17025:2005)**

(within the range of -5°C to +400°C)

This certification will contain the as received and as returned calibration results of the UUT at 3 points across the UUT's temperature scale. In addition to the readings, certification will include laboratory conditions, information on the primary standards and a statement of uncertainty.

\$135.00 per instrument at PTC®'s choice of points across the UUT's scale.

NIST traceable certifications by our A2LA accredited laboratory are also available for LIG, ASTM, Digital, Air Immersion, Bimetal Stem Thermometers; as well as for PRT's, Thermocouples & Probes, Pressure Gauges, Hygrometers and Durometers.

• **NIST Traceable Certifications (non A2LA)**

• **Basic Certification to Manufacturer's Specifications - Without Logged Points (NIST)**

(within the range of -5°C to +400°C)

This certification is best for customers needing only calibration traceability to NIST without the added cost of logging the calibration results.

Although no specific points will be logged, UUT's referred to will be calibrated at three or more points over the UUT's range. Up to five instruments of the same model and range can be listed on the certification for the basic price. Additional units above quantity of five can be added for a nominal fee. This certification will not list any adjustments made to the UUT or out of tolerance conditions.

Price: \$90.00 (up to 3 instruments of the same model and range).

\$9.00 for each instrument above quantity of three.
