

Surface Thermometer Certification

Certificate No. 1896.01

PTC Metrology™ is Accredited by A2LA to ISO/IEC 17025:2005 and ANSI/NCSL Z540.1

PTC Metrology™ meets the requirements of ISO 17025:2005 and ANSI/NCSL Z540.1 for NIST traceable certifications. Certifications will include: as received and as returned data, a statement of uncertainty, laboratory conditions, and information on the primary standards.

NIST Traceable - A2LA Accredited (17025) Surface Thermometer Certification

Customer's Choice of Points NIST/A2LA ISO 17025

(CERTST100C)

This certification will contain the as received and as returned calibration results of the UUT at 3 selected temperature points. In addition to the readings, certification will include laboratory conditions, information on the primary standards and a statement of uncertainty.

\$60.00 per point from -5°C to 390°C

To assist you in choosing test points, please refer to ASTM E-77 and NIST recommendations.

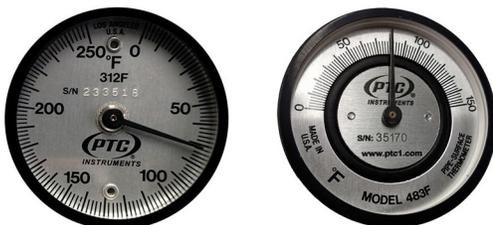

Contact PTC® for critical temperature points.

3 Points PTC® Chooses NIST /A2LA ISO 17025

(CERTTEMPA)

This certification will contain the as received and as returned calibration results of the UUT at 3 points across the UUT's temperature scale. In addition to the readings, certification will include laboratory conditions, information on the primary standards and a statement of uncertainty.

\$145.00 per instrument at PTC®'s choice of points across the UUT's scale.

PTC® Surface Thermometers

NIST Traceable Certifications (non A2LA)

Basic Certification to Manufacturer's Specifications Without Logged Points (NIST) (within the range of -5°C to +400°C)

Basic Cert-No Points NIST Traceable

(CERT)

This certification is best for customers only needing calibration traceability to NIST without adding the cost of logging the calibration results. Although no specific points will be logged, UUT's referred to will be calibrated at three or more points over the UUT's range. This certification will not list any adjustments made to the UUT or out of tolerance conditions.

Price: \$105.00 up to 3 instruments of the same model and range. \$13.50 for each instrument above quantity of three.

ISO 17025 ACCREDITED LABORATORY

NIST traceable certifications by our A2LA accredited laboratory are also available for LIG, ASTM, Digital, Air Immersion, Bimetal Stem Thermometers as well as PRT's, Thermocouples & Probes, Pressure Gauges, Hygrometers, Durometers and Data Loggers.

PTC® Instruments Manufacturing and PTC Metrology™ Calibration Lab located at: 2301 Federal Avenue ▪ Los Angeles, CA 90064
