

# Temperature Measuring Devices with Readout or Sensor Only Certification

Certificate No. 1896.01

## PTC Metrology™ is Accredited by A2LA to ISO/IEC 17025:2005 and ANSI/NCSL Z540.1

PTC Metrology™ meets the requirements of ISO 17025:2005 and ANSI/NCSL Z540.1 for NIST traceable certifications.

Certifications will include: as received and as returned data; a statement of uncertainty; laboratory conditions; and information on the primary standards.

To assist you in choosing test points, please refer to ASTM E-77 and NIST recommendations.

### Customer's Choice of Points

This cert will contain the before and after calibration results of the UUT at the point(s) selected by the customer. The points may be selected from the chart below. Information on the customer's UUT and PTC®'s calibration standards will also be on the certification.

Cost of the certification will depend on which points the customer chooses. Minimum 3 Points.

TEMPERATURE RANGE °C	CODE	Price
Liquid Nitrogen -196°C to -77°C	CERTBLN	\$110.00*
-75°C to < -37°C	CERTB-0°C	\$125.00
-37°C to < 0°C	CERTB-37°C	\$100.00
Triple Point of water +0.01°C	CERTBTPW	\$175.00
0°C to 100°C	CERTB100°C	\$70.00
>101°C to 300°C	CERTB300°C	\$80.00
>301°C to 500°C	CERTB500°C	\$120.00
>501°C to 1000°C	CERTB1000°C	\$150.00

\*Plus the cost of Liquid Nitrogen

**ISO 17025  
ACCREDITED  
LABORATORY**

**NIST Traceable - A2LA Accredited (ISO 17025:2005) Certifications for Digital or Analog Stem Thermometers, PRT's, RTD's, Thermocouples, Probes, Thermistors, Semi-Submersible Units.**

### Other Calibration Services

NIST traceable certifications by our A2LA accredited laboratory are available for LIG, ASTM, Digital, and Bimetal Surface & Stem thermometers; as well as for PRT's and Thermocouples & Probes; Pressure Gauges, Hygrometers, Durometers and Data Loggers.

View our scope of accreditation.

[A2LA Certificate and Scope of Accreditation.](#)

### Basic Certification Traceable to NIST (non A2LA) - Without Logged Points

#### (CERT)

This certification is best for customers needing only calibration traceability to NIST without the added cost of logging the calibration results.

Although no specific points will be logged, UUT's referred to will be calibrated at three or more points over the UUT's range. This certification will not list any adjustments made to the UUT or out of tolerance conditions.

**Price: \$105.00 per instrument** within the range of 0°C to 270°C for other temps, see table. Certification price does not include labor, adjustments, repairs, or replacement parts.

PTC® Instruments Manufacturing and PTC Metrology™ Calibration Lab located at: 2301 Federal Avenue ▪ Los Angeles, CA 90064
